Clic-Clac Telescope Flagpole

Standard Telescope Flagpole (above) / Deluxe Telescope Flagpole (Centre) / Clic-Clac Telescope Flagpole (below)

Telescope Flagpoles are best suited for catching the eye at trade-fairs, exhibitions or meetings. The flagpoles are robust, simple to handle, stageless height-adjustable and always quick to set up. When pushed together they are manageable in length, compact and easy to transport by car. They are practical to use everywhere, indoors and out. In order to maintain an optimal flag picture, these flagpoles can also be supplied with a rotating arm of max. 150 cm. Telescope Flagpoles are made of aluminum in 3 pieces in lengths up to 8m and are available in three versions:

**Standard:** The Standard Telescope Flagpole is natural aluminum and therefore very cost-effective. The tubes are blocked with a locking bolt that tightens the next smaller segment through an aluminum collar ring.

Lengths: 4 m, 6 m and 8 m. Suitable for indoor and outdoor use.

**Deluxe:** The Deluxe Telescope Flagpole is colorless anodized. The tubes are blocked at the desired height via an

internal mechanism with a circular motion.

Lengths: 4m and 6m. Only suitable for indoor use!

**Clic-Clac:** The Clic-Clac Telescope Flagpole is also colorless anodized. The tubes are blocked with clips at three fixed heights (375/450/550cm). This Telescope Flagpole is suitable for indoor and outdoor use.

A choice of ground fixings compliments the offer as follows:

#### Indoors:

Round or square base plate, room stands, car wheel base, cast base plate.

#### Outdoors:

Ground tube, Screw anchor, car wheel base, concrete base 37 or 77 kg

### Technical Data: Telescope Flagpole

Type/Height	Diameter	Weight	Pack Length	Sleeve length
Standard 4 m	45/40/35 mm	2,7 kg	ca. 165 cm	1400/1450/1450 mm
Standard 6 m	45/40/35 mm	3,8 kg	ca. 225 cm	1900/2000/2200 mm
Standard 8 m	45/40/35 mm	5,4 kg	ca. 305 cm	2850/3000/2200 mm
Deluxe 4 m	45/40/35 mm	2.7 kg	ca. 165 cm	1400/1450/1450 mm
Deluxe 6 m	45/40/35 mm	3,8 kg	ca. 240 cm	1900/2000/2200 mm
Clic-Clac 5,5 m	45/40/35 mm	3,2 kg	ca. 230 cm	1700/1900/2100 mm

#### Maintenance:

The Telescope Flagpole requires no maintenance. Following outdoor use, the flagpole should be cleaned before putting away.

#### Remarks:

Telescope Flagpoles are not intended for long-term use. In strong winds the banner must be taken down for safety reasons. We do not recommend the outdoor use of Deluxe Telescope Flagpoles.
