# Mobile Flagpole quick to set up anywhere

Mobile Flagpole

Mobile Flagpoles are perfect for short or longer term use at trade fairs, in permanent exhibitions and receptions areas. In order to maintain an optimal flag picture, these flagpoles can also be supplied with a rotating arm.

Mobile Flagpoles are robust, simple to use and very quick to set up. They disassemble to a manageable length and are compact and easy to transport by car. Mobile flagpoles are practical to use everywhere, indoors and out. The flagpoles are made from anodised aluminium, two-piece (with plastic joint) and are available in different lengths up to 6m and in two versions:

The Mobile Flagpole **without rotating arm** is supplied with a plastic cap and two sliding rings.

The Mobile Flagpole **with rotating arm** is provided with a rotating arm with plastic head for flags up to max. 150 cm.

Mobile Flagpole

The arm turns the full 360°. Included with the set is a counterweight and plastic tubes for lengthwise fixing of the flag.

A choice of ground fixings compliments the offer as follows:

#### Indoors:

Round or square base plate, room stands, car wheel base, cast base plate

#### Outdoors:

Ground tube, Screw anchor, car wheel base, concrete base 37 or 77 kg

## Technical Data: Mobile Flagpole

Height	Version	Diameter	Weight	Pack Length	Tube Length
4 m	2-piece	45/35 mm	3.1 kg	2.2 m	2000/2000 mm
5 m	2-piece	45/35 mm	4.1 kg	3.0 m	3000/2000 mm
6 m	2-piece	45/35 mm	5.7 kg	3.2 m	3000/3000 mm

Flagpoles are aluminum.

#### Maintenance:

A Mobile Flagpole requires no maintenance. Not suitable for long-term outdoor use.
